

What is the voucher programme about?

- 10,000 EUR funding
- Cooperation between DE and NL
- Support of innovative ideas
- Implementation of a circular bioeconomy

Who can apply?

Companies with:

- innovative concepts for the utilisation of different types of biomass
- new product ideas out of biomass
- new processing routes for biomass

Participation conditions:

- one German and one Dutch partner
- at least one applicant is an SME
- at least one partner is in the INTERREG DE-NL programme area

This is how it works:

Voucher Programme

The voucher programme of the INTERREG Deutschland-Nederland network CIRCULAR-BIO supports innovative ideas of SMEs for the implementation of a circular bioeconomy that address the cross-border region of Germany and the Netherlands. The circular bioeconomy includes the supply and utilisation of biological resources, processes, and principles to provide products, processes, and services in all economic sectors of a sustainable circular economy.
